UNITED STATES DEPARTMENT OF AGRICULTURE  
Bureau of Agricultural Economics  
Washington, D. C.

N O T I C E

CURRENT LITERATURE ON COTTON contains references selected from publications received in the Division of Cotton Marketing from the Library of the Bureau of Agricultural Economics and from other sources. It is issued primarily for the use of the staff and cooperators of the Division.

The Division can not undertake to furnish to others than its employees the publications noted. They should be obtained from the publishers, whose names and addresses are given whenever available. Many of the books and the periodicals may be consulted in public or other libraries.

## CURRENT LITERATURE ON COTTON

### Selected References

Prepared in the Division of Cotton Marketing  
in cooperation with the Library,  
Bureau of Agricultural Economics,  
United States Department of Agriculture,  
for the use of the Staff and Cooperators

#### Demand, Competition and Prices

Altekar, M. D. Bombay mills and the Indian competition. Indian Textile Journal, v.40, no. 5, Apr. 1930, p.307. (Published at Bombay, India)

American foreign trade in linens larger. United States consumes approximately 50,000,000 worth of linen manufacturers annually, of which 80 per cent is imported. Commerce Reports, no.25, June 23, 1930, p.748-750. (Published by U. S. Dept. of Commerce, Washington, D. C.)

Buchler, Walter. Japan as a market for textiles. Textile World, v.77, no.21, May 24, 1930, p.3133. (Published by Bragdon, Lord & Nagle Co., Tenth Ave. at 36th St., New York City)

Garside, Alston H. Foreign growths of cotton and their relation to the American cotton industry. Address delivered before Convention of American cotton shippers association at Memphis, Tennessee, April 25, 1930. (N. Y., Ever Ready press, 1930) 15 p.

Also published in Cotton Digest, v. 2, no.29, May 3, 1930, p.2-3; and in Cotton and Cotton Oil News, v. 31, no.21, May 26, 1930, p.34

Grove-Palmer, Fred. A British grown substitute for cotton. Textile Colorist, v.52, no.614, Feb. 1930, p.101-103. illus. (Published at 233 Broadway, New York City)  
"Artificial cotton"

International federation of master cotton spinners' and manufacturers' associations. International cotton statistics. (Preliminary result) Consumption of cotton for half-year ending 31st January, 1930, and stocks of cotton in spinners' hands on 1st February, 1930, with previous years' figures for comparison. Manchester, 1930. 29p.

Japan's cotton trade with India. Indian Textile Journal, v.40, no.6, May 1930, p.350-352. (Published at Bombay, India)

Lacy, I. A. United States exports of hosiery during 1929. Commerce Reports, no. 19, May 12, 1930, p.362-363. (Published by U. S. Dept. of Commerce, Washington, D. C.).

McCampbell, Leavelle. When will cotton goods supply be balanced with demand? Textile World, v.77, no.23, June 7, 1930, p.3377, 3384. (Published by Bragdon, Lord & Nagle Co., Tenth Ave. at 36th St., New York)

Also in American Wool and Cotton Reporter, v.44, no.23, June 5, 1930, p.2214; and in Manufacturers Record, v.97, no.24, June 12, 1930, p.43-45; and in Commerce and Finance, v.19, no. 23, June 4, 1930, p.1126.

Niemeyer, A. Export problems of the world's rayon producers. Silk Journal, v.6, no.71, Apr. 1930, p.43-44. (Published at Manchester, England)

Smith, H. G. Why mills demand improved cotton. Agricultural Bulletin, spring, 1930, p.10. illus. (Published by Agricultural Agent, Atlanta & West Point Railroad Company, 4 Hunter St., S. E., Atlanta, Ga.)

Textile fiber consumption. Textile Colorist, v.52, no.614, Feb. 1930, p.113. Charts. (Published at 233 Broadway, New York City)

Warty, S. G. India and Lancashire. Indian Textile Journal, v. 40, no.5, Apr. 1930, p.308. (Published at Bombay, India)

Yeh, Y. T. Some facts concerning China cotton industry and trade. Annual consumption in China Tls. 300,000,000. Export Inspection Bulletin, v.1, no.2, May 1930, p.1-3. (Published by Shanghai Bureau of Inspection and Testing of Commercial Commodities, Shanghai, China)

### Supply and Movement

British cotton growing association. Twenty-fifth annual report for the twelve months ending December 31st, 1929. Manchester, 1930. 72p. (No. 112)

Cook, O. F. Cotton of long staple could be produced in much greater quantity. Yearbook (1929) 1930, p.202-207. illus. (Published by U. S. Dept. of Agriculture, Washington, D. C.)

Crawford, M. D. C. The relation of cotton production to industry. Acco Press, v.8, no.5, May, 1930, p.23, 26-29. (Published by Anderson, Clayton, & Co., Houston, Texas)

Hart, J. L. Grow better cotton and less of it, speaker tells ginners of Oklahoma. Cotton Ginners' Journal, v.4, no.8, May-June, 1930, p.7-8. (Published at Dallas, Texas)  
Address at annual banquet of Oklahoma Cotton Ginners' Association, Oklahoma City, Apr. 18, 1930.

Hawkins, R. S., and Serviss, George H. Development of cotton fibers in the Pima and Acala varieties. Journal of Agricultural Research, v.40, no. 11, June 1, 1930, p.1017-1029. illus. (Published by U.S. Dept. of Agriculture, Washington, D. C.)

The indications of cotton acreage in June, 1930. Commercial and Financial Chronicle, v.130, no. 3392, June 28, 1930, p.4491-4507. (Published at 12 John St., New York City)

Kearney, T. H. Cotton breeding today works with main types known in remote past. Yearbook (1929) 1930, p.182-190. illus. (Published by U. S. Dept. of Agriculture, Washington, D. C.)

Landon, Charles E. The westward movement of cotton growing in the United States. Journal of Geography, v.29, no.5, May 1930, p.215-219. (Published by A. J. Nystrom & Co., 3333 Elston Ave., Chicago, Ill.)

Lanham, W. B. Cotton grade and staple estimates show quality trend. Yearbook (1929) 1930, p. 195-197. (Published by U. S. Dept. of Agriculture, Washington, D. C.)

Rahula, H. Sri. Improvement of standard Indian cottons. Aspects of value to the grower and trader. Indian Textile Journal, v.40, no. 6, May 1930, p.372-373. (Published at Bombay, India)

Thadani, K. I. Progress of cotton research in Sind. Poona Agricultural College Magazine, v.21, no.4, Feb. 1930, p.198-202. (Published at Poona, India)

Webb, Robert W. Gin efficiency an important factor in cotton quality. Yearbook (1929) 1930, p.294-296. illus. (Published by U. S. Dept. of Agriculture, Washington, D. C.)

Westbrook, E. C. Can Georgia compete with Texas in cotton production. Agricultural Bulletin, spring, 1930, p.15-16. Charts. (Published by Agricultural Agent, Atlanta & West Point Railroad Company, 4 Hunter St., S. E., Atlanta, Ga.)

Whittle, C. A. Growing cotton for the best market. Agricultural Bulletin, spring, 1930, p.6-8. illus. (Published by Agricultural Agent, Atlanta & West Point Railroad Company, 4 Hunter St., S. E., Atlanta, Ga.)

#### Marketing Methods, Services, and Facilities

Butler, Edward S. Buying and selling cotton on call - advantages and disadvantages; abuses and remedies. Commerce and Finance, v. 19, no. 17, Apr. 23, 1930, p.841. (Published by Theodore H. Price Publishing Corporation, 95 Broad St., New York)

Crawford, G. L. Point buying of cotton versus buying on quality basis. (Washington, U. S. Dept. of Agriculture, Bureau of Agricultural Economics, 1930.) 9p. Mimeographed.

Address, Economic section, Southern agricultural workers, Jackson, Miss., February 6, 1930.

Havre, French cotton port. Foreign Trade, v.5, no. 4, Apr. 1930, p.20-25. (Published by American Chamber of Commerce in France, 32 Rue Taitbout, Paris, France)

Newton, R. L. Advantages of using Federal bonded warehouses in marketing cotton. Cotton and Cotton Oil News, v.31, no.22, June 2, 1930, P.1, 6. (Published at 3116-3118 Commerce St., Dallas, Texas)

Newton, R. L. The Federal warehouse system - what it provides. Cotton and Cotton Oil News, v.31, No. 23, June 9, 1930, p.8-9. (Published at 3116-18 Commerce St., Dallas, Texas)

Newton, R. L. The warehouseman and the United States Warehouse Act. Cotton and Cotton Oil News, v.31, no.25, June 23, 1930, p.3, 6. (Published at 3116-18 Commerce St., Dallas, Texas)

Newton, R. L. The warehouse receipt under the United States Warehouse Act. Cotton and Cotton Oil News, v.31, no.24, June 16, 1930, p.8-9. (Published at 3116-18 Commerce St., Dallas, Texas)

Northington, Allen. The American cotton co-operative association. Internat. Cotton Bul. v.8, no.31, Apr. 1930, p.447-448,451. (Published by International Federation of Master Cotton Spinners' and Manufacturers' Associations, 238, Royal Exchange, Manchester, England)

Ostrolenk, Bernhard. Farm Board speculation and the price of cotton. Annalist, v.35, no.906, May 30, 1930, p.1156-1157. (Published by New York Times Co., Times Square, New York City)

Phillips, Frank R. Co-operative gins gain in popularity. They mean better cotton, better grading, better prices, think West Texas farmers. Progressive Farmer (Texas ed.) v.45, no.25, June 21, 1930, p.605T. (Published at Slaughter Building, Dallas, Texas)

Williams, Carl. Federal Farm Board and cotton situation. American Wool and Cotton Reporter, v.44, no.19, May 8, 1930, p.1838-1842. (Published at 530 Atlantic Ave., Boston, Mass.)

Address before the American Association of Cotton Manufacturers, Boston, Mass, May 1, 1930.

Excerpts in Commerce and Finance, v.19, no.19, May 7, 1930, p.951; and in Western Cotton Journal, v. 10, no.1, May 1930, p.3.

Williams, Carl. Federal Farm Board and the cotton situation. Cotton, v.94, no.8, June 1930, p.908-909. (Published at Grant Building, Atlanta, Ga.)

Abstract of speech at meeting of American Cotton Manufacturers' Association at Pinehurst, N. C., May 6, 1930.

### Manufacturing

Hughes, H. G. Recent industrial tendencies - the substitution of knowledge and co-operation for instinct and competition. Textile Institute Journal, v.21, no.5, May 1930, p.P90-P98. (Published at 16 St. Mary's Parsonage, Manchester England)

Annual Mather lecture.

Excerpts in Cotton Trade Journal, v.10, no.5, June 21, 1930, p.6.

Madras cottage textile industry. Indian Textile Journal, v.40, no.5, Apr. 1930, p.322-323. (Published at Bombay, India)

Pearse, Arno S. Textile industries of India and Japan. Indian Textile Journal, v.40, no. 4, Mar. 1930, p.265-269. (Published at Bombay, India)

Address before the Millowners' Association in Bombay, Jan. 30, 1930.

### Technology

Adams, Orville. Application of ball bearing hangers and transmission appliances to the gin plant. Part III. Oil Miller and Cotton Ginner, v.36, no.2, Apr. 1930, p.24-26. (Published at 161 Spring St., N.W., Atlanta, Ga.)

Andrews, B. R. Theory and practice in textile drying. Southern Textile Bulletin, v.38, no.16, June 19, 1930, p.14, 27. (Published at 18 West Fourth St., Charlotte, N. C.)

Bennett, Charles A. Recent government experiments in drying seed cotton. American Ginner and Cotton Oil Miller, v.7, no.9, May 1930, p.11-15, illus.; no.10, June 1930, p.11-13. (Published at Little Rock, Ark., P.O.Box 504)

Bennett, Charles A. Proper methods of drying seed cotton in the process of ginning. Cotton and Cotton Oil News, v.31, no.22, June 2, 1930, p.1, 4-5. (Published at 3116-18 Commerce St., Dallas, Texas)

Boswell, W. E. Shrinkage and take-up of yarn in knitted fabrics. Textile Institute Journal, v. 21, no.4, Apr. 1930, p.T179-185. (Published at 16 St. Mary's Parsonage, Manchester, England)

Bragg, William. Cellulose in the light of the X-rays. Cellulose, v.1, no.3, Apr. 1930, p.80-83. illus. (Published at 114 East 32d St., New York City)

Brown, Kenneth Craven, Mann, James Cameron, and Peirce, Frederick Thomas. The influence of humidity on the elastic properties of cotton. Part V. - The tensile behaviour. Textile Institute Journal, v.21, no.4, Apr. 1930, p. T186-T203. (Published at 16 St. Mary's Parsonage, Manchester, England)

Cellulose fibres; internal anatomy and behaviour towards dyestuffs. Textile Manufacturer, v.56, no.664, Apr. 15, 1930, p.146-148. (Published at 65 King St., Manchester, England)

Cotton carding and spinning problems. Eastern Carolina discussions on card settings and clothing, humidification and cleaning and care of spinning and rings. American Wool and Cotton Reporter, v.44, no.22, May 29, 1930, p.2075- (Published at 530 Atlantic Ave., Boston, Mass.)  
Meeting of Eastern Carolina Division of the Southern Textile Association, Selma, N. C., May 9, 1930.

Cotton fields to finished product. Textile Mercury, v.82, no.2143, 2145-2149, Apr. 11, 25, May 2-23, p.341, 385, 406, 423, 443, 467. (Published at 20 Mount St., Manchester, England)

Methods to be adopted for the testing of cotton samples; p.341. illus.

Methods of ascertaining degrees of dampness in cotton yarns: p.385.

A description of the rivet trap and the improvements which have been made in apparatus for arresting broken seed, leaf, and sand in the initial processes of cotton production: p.406.

Further methods of high speed pirn winding: p.423.

Methods employed in testing cotton for loss due to the presence of such foreign matter as broken seed, leaf, and sand, are described: p.443

Further methods for testing cotton in the various stages of its preparation and production are described: p.467.

Davidson, E. T. Notes on sulfur color dyeing.

American Dyestuff Reporter, v.19, no. 6, Mar. 31, 1930, p.213-217. (Published at 90 William St., New York City)

Paper presented to the quarterly meeting of the South Central section, American Association of Textile Chemists and Colorists, Feb. 15, 1930.

Davidson, George Forrest, and Shorter, Sydney Alfred.

The dry weight of cotton. Textile Institute Journal, v.21, no.4, Apr. 1930, p.T165-T178.

(Published at 16 St. Mary's Parsonage, Manchester, England)

Edwards, W. F. Measuring textiles. Southern

Textile Bulletin, v.38, no.15, June 12, 1930, p.7-8. (Published at 18 West Fourth St.,

Charlotte, N. C.)

Edwards, W. F. The present status of measuring

physical properties of textiles. Melliand, v.2, no.3, June 1930, p.349-353. (Published

at Woolworth Building, New York City)

Gt. Brit. Department of scientific and industrial research. Fabrics co-ordinating research committee. Second report. London, H. M. Stationery off., 1930. 180 p.

Contents: Report of the committee; Appendix I.-The fireproofing of fabrics; Appendix II.-The action of sunlight on cotton in the presence and absence of oxygen; Appendix III.-The determination of the waterproofness of "porous" waterproof fabrics; Appendix IV.-The effect of dimensions of test-pieces on the results of tensile test on textile fabrics; Appendix V.-The deterioration of fabrics by micro-organisms.

Johnson, George H. Laundry standards. Joliet, Ill., Laundryowners national association of the United States and Canada, 1930. 48p. illus.

A series of articles that have been reprinted in booklet form for the information of those who are interested in launderability and wearability.

### Marketing, Methods, Services and Facilities

Blackwell, Jack. Improper storage of cotton causing immense amount of country damage each year. Cotton and Cotton Oil News, v.31, no.38, Sept. 22, 1930, p.7. (Published at 3116-18 Commerce Street, Dallas, Texas)

New Orleans. Board of commissioners of the port. Thirty-third report...as of August 31, 1929. New Orleans, 1929? 56p. illus.  
Describes the public cotton warehouse and gives statistics of cotton received and delivered.

North Carolina. Agricultural experiment station. Fifty-second annual report...for the fiscal year ended June 30, 1930, Statistical summary for year ending December 1, 1929. Raleigh, 1930? 125p. illus.  
The marketing of cotton: p.24.

Parker, Walter. Fundamental difference between the ancient and modern market for cotton. Cotton Trade Journal, v. 10, no.32, Aug. 9, 1930, p.1, 4. (Published at Cotton Exchange Building, 231 Carondelet Street, New Orleans, La.)  
Discusses hedging.

Stünckel, Alwin. Hamburg as a port and cotton market. Commerce and Finance, v.19, no.39, Sept. 24, 1930, p.1831-1832. illus. (Published by Theodore H. Price Publishing Corporation, 95 Broad Street, New York City)

### Manufacturing

"Ajax" The textile industry in South India. Hand-loom weaving. Indian Textile Journal, v. 40, no.478, July 31, 1930, p.464-465. (Published at Military Square, Meadows Street, Fort, Bombay, India)

Institute of Pacific relations. Problems of the Pacific, 1929. Chicago, Ill., University of Chicago Press, 1930. 697p.  
China's cotton industry: a statistical study of ownership of capital, output, and labor conditions, by Miss S. T. King and D. K. Lieu: p.262-299.

King, William. Rationalization and the textile industry. Textile World, v.78, no.9, Aug. 30, 1930, p.978-979. (Published by Bragdon, Lord & Nagle Co., Inc., 10th Ave. at 36th St., New York City)

Lancastrian. Lancashire's hard times. Commerce and Finance, v.19, no.39, Sept. 24, 1930, p.1821, 1823. (Published by Theodore H. Price Publishing Corporation, 95 Broad Street, New York City)

S., E. M. The textile industry in the Punjab. Indian Textile Journal, v.40, no.478, July 31, 1930, p.467-468. (Published at Military Square, Meadows Street, Fort, Bombay, India)  
 A.- The cottage industry - its extent.  
 B.- The mill industry.

### Technology

Pa

Bahnson, F. F. Conditioning rooms for textile mills. Melliand, v.2, no.6, Sept. 1930, p.797-801. illus. (Published at Woolworth Building, New York City)

Discusses normal regain for cotton, silk and wool, value of conditioning rooms, time required, and equipment.

Blake, E. E. Some observations on large package spinning. Cotton, v.94, no.11, Sept. 1930, p.1209-1210. (Published by W. R. C. Smith Publishing Company, Atlanta, Ga.)

Bostick, E. H. Is Congress ignorant of developments in modern cotton ginning machinery? American Ginner and Cotton Oil Miller, v. 8, no.1, Sept. 1930, p.13-16. (Published at Little Rock, Ark.)  
 "Reprint from Cotton Trade Journal."

Dawson, J. H. Modern machine processes for the blowing room. Textile Mercury, v.83, no.2158, July 25, 1930, p.85. (Published at 20, Mount Street, Manchester, England)

Dawson, J. H. New model mixed carding engine. Textile Mercury, v. 83, no.2164, Sept. 5, 1930, p.241. (Published at 20, Mount Street, Manchester, England)

Discussion of improvements in the new model being made by Messrs. Dobson and Barlow.

Dawson, J. H. Practical hints on the ring spinning system. Textile Mercury, v.83, no.2162, Aug. 22, 1930, p.191. (Published at 20, Mount St., Manchester, England)

Ring spinning for the cotton trade.

Draft and twist in cotton mules. Textile Mercury, v.83, no.2161, Aug. 15, 1930, p.171. (Published at 20 Mount St., Manchester, England)

Ellis, H. The microscopy of the vegetable fibres. Textile Recorder, v.48, no.569, Aug. 15, 1930, p.36-37; no.570, Sept. 15, 1930, p.29-30. (Published at 121, Deansgate, Manchester, England)

Seed hairs - their structure and method of preparation for microscopical examination: no. 570, p.29-30.

Ellis, H. Tendering by acid in yarn or fabric. Textile Mercury, v. 83, no.2161, Aug. 15, 1930, p.167. illus. (Published at 20, Mount St., Manchester, England)

Effect of treating cotton materials with acid.

Federal specifications for textile materials. Textile Colorist, v. 52, no.618, June 1930, p.390-391. (Published at Woolworth Building, 233 Broadway, New York, N. Y.)

"These methods were prepared for use in making determinations on the requirements specified in textile specifications promulgated by the Federal Specifications Board."

Frankenberg, K. Henkel. The effect of origin and degree of purification of vegetable fibers upon the absorption of metallic salts and naphthol AS. Melliand, v.2, no.6, Sept. 1930, p.817-820. (Published at Woolworth Building, New York City)

From cotton fields to finished product. Textile Mercury, v. 83, no.2159-2162, Aug. 1, 8, 15, 22, 1930, p.119, 145, 169, 195. (Published at 20 Mount St., Manchester, England)

Details of the opening process and description of various types of beaters: p.119.

Description of the reeling process with particular attention to the traverse and knock-off motions: p.145.

Yarn testing. Detailed description of the single thread method: p.169. illus.

Remedying and preventing faults in yarns: p. 195. illus.

Hall, A. J. New developments in methods for determining the oxycellulose content of cotton goods. Textile Manufacturer, v. 56, no.668, Aug. 1930, p.299-301. Charts. (Published at 65, King St., Manchester, England)

Iyengar, R. L. N., and Turner, A. J. The weight per inch of fibres of different lengths, and the numbers of fibres of different lengths per seed, for each of the standard Indian cottons. Bombay, Indian Central Cotton Committee, Technological Laboratory, 1930, 24p. (Technological Bul. Ser. B, no.7)

Also in Textile Institute Journal, v. 21, no.9, Sept. 1930, p.T417-440.

King, William. Cloth defects. Reducing "cuts" and "seconds". Canadian Textile Journal, v.47, no. 37, Sept. 11, 1930, p.17-20. (Published at 1434 St. Catherine St., West, Montreal, Que.)

Koshal, Ram Saran, and Turner, A. James. Studies in the sampling of cotton for the determination of fibre-properties. Bombay, Indian Central Cotton Committee. Technological Laboratory, 1930. 46p. Charts. (Technological Bul. ser. B, no.6)

Also in Textile Institute Journal, v. 21, no.8, Aug. 1930, p.T325-T370.

Martin, H. D. Modern cotton picker room operation and its advantage for the colored goods industry. Textile Colorist, v. 52, no.618, June, 1930, p.380, (Published at Woolworth Building, 233 Broadway, New York N.Y.)

Martin, H. D. The wonders of cotton yarns. Textile Colorist, v. 52, no.618, June 1930, p.406-407. (Published at Woolworth Building, 233 Broadway, New York City)

Describes length and diameter of fibers used, strength of fiber, elasticity, pliability, color, moisture, standard weight of yarns and uses of yarns.

Merrill, Gilbert R. Long draft vs. normal draft. American Wool and Cotton Reporter, v. 44, no. 36, Sept. 4, 1930, p.3317. (Published at 530 Atlantic Avenue, Boston, Mass.)

"The studies which served as a basis for the results shown in this report were carried on for two years in the laboratories of the Lowell Textile Institute."

"Micklehurst" Some causes of defective carding.  
Textile Recorder, v. 48, no.569, Aug. 15, 1930.  
p. 32. (Published at 121, Deansgate, Manchester,  
England)

"Minesta" Factors in dyeing cotton fabrics.  
Textile Recorder, v. 48, no.570, Sept. 15, 1930,  
p.57. (Published at 121 Deansgate, Manchester,  
England)

Mitfessel, W. The use of wetting-out agents in  
the bleaching of raw cotton. Textile Manufac-  
turer, v.56, no.668, Aug. 1930, p.306. (Pub-  
lished at 65 King St., Manchester, England)  
From Melliand.

Mullin, Charles E. Developments and trends in  
dyes and dyeing in America; a brief discussion  
of some of the recent dyestuffs, dyeing and  
related developments in America and a compari-  
son of the present products and methods with  
those in use fifty years ago. Textile Colorist,  
v.52, no.619, July, 1930, p.449-451. (Published  
at Woolworth Bldg., 233 Broadway, New York City)

Navkal, Harirao, and Turner, A. James. The  
foundations of yarn-strength and yarn-extension.  
Part III. The clinging power of cotton. Bombay,  
Indian Central Cotton Committee, Technological  
Laboratory, 1930. 13p. illus. (Technological  
Bul. Ser. B, no.8)

Oiled cotton waste vs. unoiled cotton waste.  
Textile Colorist, v. 52, no.619, July, 1930,  
p.457-459. (Published at Woolworth Bldg., 233  
Broadway, New York City)

Preston, J. M. The use of the microscope in the  
textile industry. - VII. Surfaces and fabric  
structure. Textile Manufacturer, v. 56, no.  
668, Aug. 1930, p.284-286. illus. (Published  
at 65, King St., Manchester, England)

Roberts, Herbert G. Mildew in textile mills, II.  
American Dyestuff Reporter, v. 19, no.12, July  
21, 1930, p.473-474, illus. (Published by  
Howes Publishing Company, 440 Fourth Ave., New  
York City)

Sheppard, S. E. The dispersion of cellulose and  
cellulose derivatives. Journal of Physical  
Chemistry, v. 34, no.5, May 1930, p.1041-1052.  
illus. (Published by the Chemical Foundation,  
654 Madison Ave., New York, N. Y.)

- Sherman, S. H. Effects of change of draft in cotton carding. Textile World, v. 78, no.12, Sept. 20, 1930, p.1337. (Published by Bragdon, Lord & Nagle Co., Inc., 10th Ave. at 36th St., New York City)
- Skinkle, John H. Elementary textile microscopy. Part III - Identifications. American Dyestuff Reporter, v. 19, no.12, July 21, 1930, p.449-454. illus. (Published by Howes Publishing Company, 440 Fourth Ave., New York City)  
Includes identification of cotton and mercerized cotton.
- Turner, A. Jones. Technological report on Banilla cotton, 1924-30. Bombay, Indian Central Cotton Committee, Technological Laboratory, 1930. 12p. (Technological Bul. ser. A, no.16)
- Winning the case for oiled cotton. Fibre and Fabric, v. 83, no.2376, Aug. 16, 1930, p.6-9. (Published by Wade Publishing Co., 465 Main Street, Kendall Square, Cambridge, Mass.)  
Quotes from conclusions of J. J. Brown in report of the Arkwrights.

#### Cotton Seed, Cottonseed Products, and Linters

- Henderlang, F. P. The effect of milling operations upon the refining of crude cottonseed oil. Oil Miller and Cotton Ginner, v. 37, no.1, Sept. 1930, p.16-17. (Published at 121 Spring St., N.W., Atlanta, Ga.)
- Meloy, G. S. Development of standard methods for grading and evaluating cottonseed. American Ginner and Cotton Oil Miller, v. 8, no.1, Sept. 1930, p.17-19. (Published at Little Rock, Ark., P. O. Box 504)  
Address delivered at Dallas, Texas, July 10, 1930.
- Meloy, G. S. Quartering cottonseed samples. Cotton Oil Press, v. 14, no.5, Sept. 1930, p.21. (Published at Cotton Exchange Building, Memphis, Tenn.)

Miscellaneous, General

Clark's textile year book and southern textile directory. 1930 ed. Charlotte, N. C., Clark publishing co., 1930. 209p.

Besides the directory, statistics of the cotton crop and of cotton manufacturing are given.

Cotton manufacturers association of Georgia.

Report of the thirtieth annual meeting...1930. Atlanta, Ga., 1930. 178p.

Contents include address by H. G. Smith on Cotton Mill Rules and Contracts.

Geller, Carl. A retrospect of American cotton, season of 1929-1930, and prospects for the new season. Commerce and Finance, v. 19, no. 39, Sept. 24, 1930, p. 1819, 1821. (Published by Theodore H. Price Publishing Corporation, 95 Broad Street, New York City)

Kearney, Thomas H. Cotton plants, tame and wild. Journal of Heredity, v. 21, no. 5, May 1930, p. 195-210. (Published by the American Genetic Association, 1918-32 Harford Ave., Baltimore, Md.)

Discusses history and geography of the cotton plant, development and structure of the seed hairs, botanical classification of the genus *Gossypium*, and origin of modern commercial cottons.

Nelson, Martin. Cooperative fertilizer experiments with cotton. Fayetteville, Ark., 1930. 4p. (Ark. Agr. Exp. Sta. Bul. 255)

New Orleans cotton exchange. Secretary's report. Cotton crop of the United States for 1929-30. New Orleans, 1930. 4p.

Extracts from this report of Secretary H. G. Hester were published in Manufacturers Record, v. 98, no. 7, Aug. 14, 1930, p. 62-63.

Reed, W. G. A disastrous season. Looking back on 1929-30. Commercial, Aug. 28, 1930, American cotton annual review, p. 7-8. (Published by the Manchester Guardian, Manchester, England)

Sloan, George A. Helping an industry to help itself. Work of the Cotton-Textile institute. Commercial, Aug. 28, 1930, American cotton annual review, p.14. (Published by Manchester Guardian, Manchester, England)

Southern textile association. Proceedings of the twenty-second annual meeting. Divisional and sectional meetings. (Charlotte, N. C., 1930) 272p.

Annual meeting, Myrtle Beach, S. C., June 27-28, 1930.

Partial contents: Studies in the growth and behavior of cotton fibres, by Wanda K. Farr: p. 30-31 (abstract); Humidity and humidification, by Howard Morrison: p.176-185; Research in cotton, by W. H. Barre: p.109-112.

Williams, Carl, and Fooshe, G. W. The Farm board in the balance. I.-What the Board thinks. II.-What shippers and spinners think. Commercial, Aug. 28, 1930, American cotton annual review, p.17-18. (Published by Manchester Guardian, Manchester, England)

Work of the Farm Board with reference to cotton.

Pearse, Arno S. My impressions on the cotton industry of India. *Indian Textile Journal*, v. 40, no.479, Aug. 1930, p.498-504. (Published at Military Square, Meadows Street, Fort, Bombay, India)

Rayon and mercerized cotton. Future lines of expansion are discussed in this field and a brief resume of the mercerized cotton industry is given. *Rayon and Synthetic Yarn Journal*, v.11, no.6, Oct. 1930, p.18. (Published at 154 Nassau Street, New York City)

Todd, John A. Comparative cotton prices. *Empire Cotton Growing Review*, v.7, no.4, Oct. 1930, p. 304-308. (Published by P. S. King & Son, Ltd., 14 Great Smith St., London, S. W. 1, England)

"History of cotton prices during the season 1929-30."

Table I.-History of cotton prices, 1899-1930, season's averages; Table II.-Spot prices of American and Egyptian cotton in Liverpool, Alexandria, and New Orleans on the last Friday of each month; Table III.-Monthly spot prices of various kinds of cotton in Liverpool, 1927-30.

### Supply and Movement

Egypt. Ministry of agriculture. Cotton research board. Seventh report, 1928. Cairo, Government press, 1930. 57p. charts.

Part I. Reconstruction of the Cotton Research Board; Part II. Experimental work on cotton.

Grimes, K. A. The story of cotton. No.8-The lost fleece of the Sea Islands. *Southern Agriculturist*, v.60, no.17, Sept. 1930, p.32-33. illus. (Published at Nashville, Tenn.)

Nyasaland protectorate. Department of agriculture. Annual report...1929. Zomba, Government printer, 1930? 31p.

Cotton production and grading: p.8-9.

"Report on the work of the cotton experiment stations, season 1928-29."

Rea, Robert. Pro and con of the cotton stripper.  
Oklahoma Farmer-Stockman, Sept. 1, 1930, p.638.  
(Published at Oklahoma City, Okla.)  
Experiences in harvesting cotton mechanically.

Rea, Robert. Speeding up cotton harvest. Capper's  
Farmer, v.41, no.10, Oct. 1930, p.5. illus.  
(Published at Topeka, Kans.)  
Discussion of the advantages of harvesting cotton by machine.

Roberts, W. "Crop failures" and mixing of Punjab  
American. Empire Cotton Growing Review, v.7,  
no.4, Oct. 1930, p.275-278. (Published by P.S.  
King & Son, Ltd., 14, Great Smith St., London,  
S. W. 1, England)

"While the writer regards mixing as an evil,  
it is a minor one compared with the crop failures which have periodically occurred, and it will be more profitable to all concerned if attention is concentrated on overcoming these crop failures, leaving the question of mixing gradually to attain equilibrium."

Todd, John A. The future of American cotton. An  
annual review. Cotton Textile Bulletin, no.3,  
Oct. 15, 1930, p.1-7. (Published by the Association of Cotton Textile Merchants of New York,  
70 Worth St., New York City)

"Something must be done to alter drastically the recent tendency of American cotton production, for only by increasing the average yield, and therefore reducing the cost of production, can America hope to compete with the increasing production of Outside Growths."

Also in Southern Textile Bulletin, v.39, no.9,  
Oct. 30, 1930, p.34-35.

#### Marketing Methods, Services and Facilities

Harrison, James H. Bertel system of storing  
cotton. Cotton Trade Journal, v.10, no.41,  
Oct. 11, 1930, p.3. illus. (Published at  
609 Cotton Exchange Building, New Orleans,  
La.)

Parker, Walter. Future trading vs. direct  
barter. Cotton and Cotton Oil News, v.31,  
no. 40, Oct. 6, 1930, p.6-7. (Published at  
Dallas, Tex.)

South Africa. Dept. of agriculture. Report on  
co-operative marketing during 1927-28.  
Pretoria, Government printer, 1930. 53p.  
(Bul. 74. Econ. ser. 10)  
Cotton: p.21.

Manufacturing

- Baylies, Lincoln. Great test of curtailment at hand. Textile World, v.78, no.16, Oct. 18, 1930, p.1925. (Published by Bragdon, Lord & Nagle Co., Inc., 10th Ave. at 36th St., New York City)

Extracts from address at National Association of Cotton Manufacturers meeting, Poland Spring, Me., Oct. 11, 1930.

- Brietz, George F. Observations on cotton spinning based on a half century in the mill. Textile World, v.78, no.16, Oct. 18, 1930, p.1942-1943. illus. (Published by Bragdon, Lord & Nagle Co., Inc., 10th Ave. at 36th St., New York City)

Greenhalgh, Frank. Trade organization. Series one; cotton spinning. Lancashire, F. Greenhalgh, 1929. 2v.

v.1 - Explanatory.

v.2 - Illustrative forms.

"The main object of this book is the detailed development of a logical system of investigation of cost, efficiency and financial results in cotton spinning." - p.15.

- Growing dominance of South's textile industry in spite of unsettled conditions. Continued expansion of manufacturing facilities. Manufacturers Record, v.98, no.16, Oct. 16, 1930, p.42-45. (Published at Commerce and Water Sts., Baltimore, Md.)

Industry overwhelmingly endorses Institute's night work proposal. Textile World, v.78, no.16, Oct. 18, 1930, p.1930-1933. (Published by Bragdon, Lord and Nagle, Co., Inc., 10th Ave. at 36th St., New York City)

Report of annual meeting of Cotton-Textile Institute, Biltmore Hotel, New York, Oct. 15, 1930, including abstract of speech by Walker D. Hines and large part of the address of George A. Sloan.

Solving cotton trade problems. Scope and work of the Joint committee. Commercial, v.21, no.538, Oct. 9, 1930, p.373. (Published by Manchester Guardian, Manchester, England)

Chart shows relation of Joint Committee of Cotton Trade Organisations (Great Britain) to other organizations.

Thoron, Ward. Ward Thoron recommends single shift of 55 hours. Textile World, v.78, no.16, Oct. 18, 1930, p.1926-1927, 1993. (Published by Bragdon, Lord & Nagle Co., Inc., 10th Ave. at 36th St., New York City)

Extracts from speech at National Association of Cotton Manufacturers meeting, Poland Spring, Me., Oct. 11, 1930.

Utley, Freda. The world crisis in textiles. Labour Monthly, v. 12, no. 6, June 1930, p. 348-355. (Published at 79 Warren Street, London, W.1, England)  
Criticism of the capitalist system.

### Technology

Duplex cotton fiber sorter. Melliand, v. 2, no. 7, Oct. 1930, p. 981-984. illus. (Published at Woolworth Building, New York City)  
Describes the Suter-Webb sorter and the method of sampling and sorting of cotton fibers by length as developed by Dr. R. W. Webb.

### Technology - Raw Cotton

Nakano, Michimaro. Studies on the structure of vegetable fibres. V. On a longitudinal growth structure of vegetable fibres. Cellulose, v. 6, no. 8, Aug. 1930, p. 192-193. illus. English abstract p. 36. (Published by the Cellulose Institute, Tokyo, Japan)  
Text in Japanese.  
Illustrations show cotton and kozo fibre.

Patel, Ambalal Jivabhai. Textile fibres. Indian Textile Journal, v. 40, no. 479-480. Aug.-Sept. 1930, p. 507-510, 556-559. illus. (Published at Military Square, Meadows Street, Fort, Bombay, India)  
Properties of the various fibers are described. Varieties of cotton and their characteristics are also described.

Stroman, G. N. Biometrical relationships of certain characters in Upland cotton. American Society of Agronomy Journal, v. 22, no. 4, Apr. 1930, p. 327-340. (Published at Geneva, N. Y.)

"In this study not only were four strains or different varieties of Acala used, but two varieties of cotton were included which were unrelated to Acala. At the outset it was desired to find out the situation with respect to the characters that go to make up yield and quality as regards their compared means of the different varieties in a minor way but mainly to ascertain the relationships of characters with each other as regards the possibility of their being correlated in certain degrees."

Technology - Ginning

Adams, Orville. Feeders and cleaners as an aid to ginning. Oil Miller and Cotton Ginner, v.37, no.2, Oct. 1930, p.17-21. illus. (Published at 161 Spring St., N.W., Atlanta, Ga.)

Rast, L. E. Do your picking and ginning methods spell cotton profits? Progressive Farmer and Southern Ruralist (Texas ed.), v.45, no.37, Oct. 1-14, 1930, p.886T. illus. (Published at Dallas, Texas)

Rast, L. E. Increase returns from cotton. Progressive Farmer and Southern Ruralist (Miss. Valley ed.), v.45, no.37, Oct. 1-14, 1930, p. 882M. (Published at Memphis, Tenn.)

Relates to picking and ginning methods.

Technology - Manufactures

A.S.M.E. papers on humidification and water purification. Textile World, v.78, no.17, Oct. 25, 1930, p.1994-1996. illus. (Published by Bragdon, Lord and Nagle Co., Inc., 10th Ave. at 36th St., New York City)

Southern textile meeting of American Society of Mechanical Engineers, Greenville, S. C., Oct. 22, 1930.

Extracts from addresses on modern humidification practice by E. D. Smith and on importance of suitable water, by C. D. Blackwelder.

Also in Southern Textile Bulletin, v.39, no. 9, Oct. 30, 1930, p.14, 16; and in American Wool and Cotton Reporter, v.44, no.44, Oct. 30, 1930, p.3973, 4035-4040.

Ball, Herbert J. The relation of physics to the textile industry. Melliand, v.2, no.7, Oct. 1930, p.969-971. (Published at Woolworth Building, New York City)

Calculations for the knitting factory. Theoretical production of circular machines - calculating yardage produced - weight and length of fabrics. American Wool and Cotton Reporter, v.44, no.40, Oct. 2, 1930, p.3611-3612. (Published by Frank P. Bennett & Co., inc., 530 Atlantic Ave., Boston, Mass.)

Cotton Manufacturers' forum. American Wool and Cotton Reporter, v.44, no.42, Oct. 16, 1930, p.3856-3876. (Published by Frank P. Bennett & Co., Inc., 830 Atlantic Ave., Boston, Mass.)

Includes discussion of new developments in picker machinery.

Dawson, J. H. Practical hints on the ring spinning system. Textile Mercury, v.83, no.2165, Sept. 12, 1930, p.277. illus. (Published at 20, Mount Street, Manchester, England)

"The characteristics of Indian cotton are featured in this article."

The fireproofing of cotton fabrics. American Dyestuff Reporter, v.19, no.17, Sept. 29, 1930, p.629-630. (Published by Howes Publishing Company, 440 Fourth Ave., New York City)  
From Textile Manufacturer.

From cotton fields to finished product. Textile Mercury, v.83, no.2165, Sept. 12, 1930, p.279. illus. (Published at 20 Mount Street, Manchester, England)

"Methods of opening and cleaning cotton, and comparisons of old and new systems."

Gulati, A. N., and Turner, A. J. The foundations of yarn-strength and yarn-extension. Part iv. The influence of yarn-twist on the diameters of cotton yarns and on the proportions of fibre-slippage and fibre-fracture in yarn-breakage. Bombay, Indian central cotton committee, Technological laboratory, 1930. 22p. illus. (Technological bul. ser.B, no.9)

Huffman, E. E., and Vilbrandt, F. C. Pressure factor in mercerization. American Dyestuff Reporter, v.19, no.16, Sept. 15, 1930, p.571-580, 591-595. illus. (Published by Howes Publishing Co., 440 Fourth Avenue, New York City)

Ivey, J. W. The use of chlorine in bleaching cotton goods. American Dyestuff Reporter, v.19, no.17, Sept. 29, 1930, p.611-616. (Published by Howes Publishing Company, 440 Fourth Ave., New York City)

Address delivered before the South Central Section, American Association of Textile Chemists and Colorists, July 26, 1930.

Jennison, M. W. Detection of fungus mycelium in mildewed cotton fabrics. Science, v.72, no.1866, Oct. 3, 1930, p.346-347. (Published at Grand Central Terminal, New York City)

Johnson, George H. High temperatures and textiles. American Dyestuff Reporter, v.19, no.15, Sept. 1, 1930, p.559-565. illus. (Published by Howes Publishing Company, 440 Fourth Ave., New York City)

Discusses scorching temperatures for various textile fabrics. A table of regain for wool, silk, rayon, cotton and bast fibers is also given.

Lloyd, L. L. The use of antiseptic agents for the prevention of mildew. American Dyestuff Reporter, v.19, no.17, Sept. 29, 1930, p.608-609. (Published by Howes Publishing Company, 440 Fourth Ave., New York City)

Martin, H. D. Miscellaneous calculations of use to cotton mills. Textile World, v.78, no.15, Oct. 11, 1930, p.1778-1780. illus. (Published by Bragdon, Lord & Nagle Co., Inc., Tenth Ave. at 36th St., New York City)

Includes calculations for "finding the satisfactory breaking strength of various sizes of yarn made of different staples, finding variations by the deviation method, computing number of looms per battery hand, converting rayon counts to cotton counts, and finding the quantities of differently priced cottons required for making a mixture of a given price."

Mather, H. Some cotton card settings. Textile Manufacturer, v.56, no.669, Sept. 1930, p.315-317. (Published at 65 King St., Manchester, England)

Nisbet, H. Improved two shuttle-box loom. Textile Mercury, v.83, no.2166, Sept. 19, 1930, p.301. illus. (Published at 20 Mount Street, Manchester, England)

The oiling of cotton for spinning. Textile Manufacturer, v. 56, no.669, Sept. 1930, p.334. (Published at 65 King St., Manchester, England)  
Summary of tests made by Arkwrights, Inc.

Peirce, F. T. The "handle" of cloth as a measurable quantity. Textile Institute Journal, v.21, no.9, Sept. 1930, p.T377-T416. illus. (Published at 16 St. Mary's Parsonage, Manchester)

"The present paper describes tests that reflect the first group of sensations, namely, stiffness and hardness, whilst the sensation that is experienced in stroking a material, obviously connected with frictional properties, will be dealt with in another paper."

Recommend smaller rolls and closer settings for short staple cotton. Southern Textile Bulletin, v.39, no.1, Sept. 4, 1930, p.12. (Published at Charlotte, N. C.)

Quoted from "Bulletin" published by the Saco-Lowell Shops.

Slashing, weaving & mechanical subjects discussed at Georgia meeting. Southern Textile Bulletin, v.39, no.4, Sept. 25, 1930, p.5-7, 11-12, 16-17. (Published at Charlotte, N. C.)

Meeting of Textile Operating Executives of Georgia at Atlanta, Sept. 19, 1930.

Smolens, H. G. Bleaching cotton piece goods with hydrogen peroxide. American Dyestuff Reporter, v.19, no.15, Sept. 1, 1930, p.547-549. (Published by Howes Publishing Company, 440 Fourth Ave., New York City)

Sommer, H. The influence of atmospheric humidity upon the moisture content of textile fabrics. Melliand, v. 2, no.7, Oct. 1930, p.916-919. (Published at Woolworth Building, New York City)

Twist in single yarns. American Wool and Cotton Reporter, v. 44, no.35, Aug. 28, 1930, p.3215. (Published by Frank P. Bennett & Co., inc., 530 Atlantic Ave., Boston, Mass.)

Discussion of the mechanical processes during which twist is inserted in the sliver and the effect of the quality of cotton on the twist.

#### Cotton Seed, Cottonseed Products, and Linters

Barrow, E. R. Past, present and future. An address delivered...at a recent convention of the Tri-states oil mill superintendents association. Cotton Oil Press, v. 14, no.6, Oct. 1930, p.35-36. (Published at Cotton Exchange Building, Memphis, Tenn.)

Brief history of the cottonseed oil industry.

Improvements shown in systems of grading cottonseed profitable to trade generally. Cotton Ginners' Journal, v. 2, no.1, Oct. 1930, p.19. (Published at Dallas, Texas)

Jamieson, George S., and McKinney, Robert S.  
 Analytical methods for cottonseed. Report  
 covering the methods developed in Bureau of  
 chemistry and soils for sampling and analysis.  
 Oil and Fat Industries, v. 7, no.8, Aug. 1930,  
 p.291-293. (Published by MacNair-Dorland Co.,  
 Inc., 136 Liberty St., New York City)

Meloy, G. S. Standard linters classifications.  
 U. S. Bureau tests various grades to determine  
 most advantageous use of each sort. Textile  
 Wastes, v.1, no.1, Oct. 1930, p.12-14, 25. illus.  
 (Published by Atlas Publishing Company, Inc.,  
 150 Lafayette Street, New York City)  
 Tests of the mattress-felting qualities of  
 Grades Nos. 1, 2 and 3 in each of the three  
 standardized characters are described.

Newbern, Guy P. Hedging of cotton seed and  
 cottonseed meal. American Ginner and Cotton  
 Oil Miller, v.8, no.2, Oct. 1930, p.11-12.  
 (Published at Little Rock, Ark.)

Oil milling data from Texas A. & M. College. Oil  
 Miller and Cotton Ginner, v.37, no.2, Oct. 1930,  
 p.11-16. (Published at 161 Spring St., N.W.,  
 Atlanta, Ga.)

Results of experiments on cleaning and delint-  
 ing, effect of depth of the saw in the roll,  
 effect of saw speed on production and power, and  
 on cooking and pressing.

Wesson, David. Food supplies and the cotton crop.  
 Oil & Fat Industries, v. 7, no.6, June, 1930,  
 p.217-218. (Published by MacNair-Dorland Com-  
 pany, 136 Liberty St., New York City)

Address presented before the annual convention  
 of the American Chemical Society, Atlanta, Ga.,  
 April, 1930.

Discusses the food products which may be  
 obtained from cotton seed.

Miscellaneous, General

Bombay millowners' association. Report...for the year 1929. Bombay, 1930. 417p.

Contents: Sec.I.-Proceedings of the annual general meeting held on 25th February 1930; Sec.II.-Foreword - Abstracts of subjects dealt with by the committee during the year - accounts of the Association for the year ending 31st December 1929; Sec.III.-Correspondence; Sec.IV.-Financial statement of the Government of India; Sec.V.-Statistics; Sec.VI.-Rules and regulations of the Association.

Cotton manufacturers annual convention. American Wool and Cotton Reporter, v.44, no.42, Oct. 16, 1930, p.3803+ (Published by Frank P. Bennett & Co., Inc., 830 Atlantic Ave., Boston, Mass.)

Report of convention of National Association of Cotton Manufacturers, Poland Spring, Me., Oct. 11-12, 1930.

Includes addresses by Lincoln Baylies, Ward Thoron, and Floyd Jefferson.

Cotton yearbook. Edition 1930. Statistical compilations, growth of cotton in the United States, acreage, production, distribution, consumption and carryover, from official records of United States Agricultural Department, Mr. Henry G. Hester, Secretary, New Orleans Cotton Exchange, and other reliable sources. Price fluctuations on the New Orleans, New York and Liverpool Exchanges. Spot quotations upland and staple cotton. Cotton yarn prices. Cotton seed products and refined oil quotations. Linters. New Orleans, La., 1930. 170p.

"Griffith's cotton year book."

Indian central cotton committee. The present position of the research schemes of the Indian Central cotton committee. Bombay, G. Claridge & Co., Ltd., 1930. 18p.

Manchester Chamber of Commerce. Monthly record. Special number reviewing national cotton week, 1930. (Published at Manchester, England)  
Contains articles describing the Empire Cotton Week.

National association of cotton manufacturers. Yearbook...1930. Boston, 1930. 245p.

Gives statistics of raw cotton, cotton manufactures, prices and sales, wages, manufacturing margins, cotton textile machinery exports, spindles and looms, Indian yarn production, Japanese cotton industry (capital, equipment,

production, operatives, and wages), rayon, legal working hours for women, history of American cotton industry; and technical information on spinning, sound humidity practice, specifications for textile materials, and tables showing breaking strength of various yarns.

The 1930 cotton production, trade and industry of China. China Monthly Trade Report, Sept. 1, 1930, p.61-70. (Published by Foreign Commerce Service of the U. S. Department of Commerce in cooperation with the Foreign Service of the Department of State, Washington, D. C.)

Oklahoma. Agricultural and mechanical college. Library. Library bibliography no.2. Cotton. A selected list of references taken from material in the library, Oklahoma agricultural and mechanical college, including publications from State experiment stations, extension divisions, and books, with a list of current magazines pertaining to cotton. Stillwater, Okla., 1930. 24p. Mimeographed.

Well attended meeting of Southern textile association during textile week in Greenville. Textile World, v.78, no.17, Oct. 25, 1930, p.1990-1993. (Published by Bragdon, Lord and Nagle Co., Inc., 10th Ave. at 36th St., New York City)

Includes extracts from address on new uses of cotton by C. K. Everett and from address on mergers by George S. Harris.

Meeting held Oct. 24, 1930.

Todd, John A. Estimating American cotton crop. A silent revolution in the Bureau's methods. Commercial, v.21, no.536, Sept. 25, 1930, p.327. (Published by the Manchester Guardian, Manchester, England).

"The change from a mere recording of mass opinion to a definite scientific statistical system based on the accumulation of actual facts is almost complete."

China. Commerce Reports, no.47, Nov. 24, 1930,  
p.483-485. (Published by the Bureau of Foreign  
and Domestic Commerce, U. S. Dept. of Commerce,  
Washington, D. C.)

McGarry, Wm. A. Cinderella cotton meets her  
prince. Printers' Ink Monthly, v.21, no.2,  
Aug. 1930, p.39-40, 91-92. illus. (Published  
at 185 Madison Ave., New York City).

Experience of one firm in using cotton for  
rug making.

Moser, Charles K. The cotton textile industry of far eastern countries. Boston, Mass., Pepperell Manufacturing Company, 1930. 144p. illus.

A survey of the cotton textile industry of Japan, China and India from which the author concludes that "Far Eastern markets in future will be more and more dominated by the cotton textile output of Far Eastern countries."

Ramakrishna Ayyar, V. G. Small scale production in India. A study in Indian industrial organization. London, Williams & Norgate, Ltd., 1930. 60p.

Includes a description of the handloom weaving industry of India, and statistics of number of handlooms in use in the towns and villages and of yarn consumed and cloth produced by Indian handlooms: p.28-30, 57, 58.

Revere, C. T. Why plant cotton at fifteen cents when it can be bought at eleven? Southern Textile Bulletin, v.39, no.9, Oct. 30, 1930, p.12-13, 32. (Published by Clark Publishing Co., 18 West Fourth St., Charlotte, N.C.)

Also in International Cotton Bulletin; v.9, no. 33, Oct.-Nov. 1930, p.61-66.

Serfontein, J. L. Artificial silk and its relation to wool, cotton, mohair, and silk. Pretoria, 1929. 45p. (Union of South Africa. Dept. of agriculture. Bul.75)

The author concludes that artificial silk will compete with cotton "but it is hardly conceivable that it will ever supplant cotton completely."

Stewart, Kenneth D. The Lancashire cotton corporation limited - Progress of the past year. Cotton, v. 36, no.1740, Oct. 18, 1930, p.30. (Published by the Manchester Cotton Association, Ltd., Ship Canal House, King Street, Manchester, England)

Todd, John A. Change in world's cotton consumption. Use of outside growths exceeds American. Commercial, v. 21, No. 542, Nov. 6, 1930, p.469. (Published by the Manchester Guardian, Guardian Building, Manchester, England)

U. S. Department of commerce. Bureau of foreign and domestic commerce. The United Kingdom. An industrial, commercial, and financial handbook, by Hugh Butler...and officers of the United States Department of commerce and Department of State. Washington, U. S. Govt. print. off., 1930. 953p. illus.

Chapter XI.-The British textile industry: p. 257; cotton industry and trade: p.259-305.

Vilbrandt, Frank C. What price cotton. Cellulose, v. 1, no.8, Sept. 1930, p.210-212.  
(Published at 114 East 32 Street, New York City)  
Discusses the cost of production and the demand for cotton, especially the demand from the rayon industry.

### Supply and Movement

Baranov, A. J. An essay of the climatological characteristics of the new cotton regions in Crimea. Yalta, Govt. botanical garden, 1930. 34p. (Nikita Govt. botanical garden. Bul. 6)  
In Russian. Summary in English.

The author "states that cotton can be grown successfully only in the southern parts of the peninsula at Kertch and in the coastal parts of Simferopol and Eupatoria regions." - p.34.

Brazil. Ministerio da agricultura, industria e commercio. Servico do algodao. Relatorio... Rio de Janeiro, 1930. 196p.

Report on work of cotton experiment stations in Brazil.

Brazil cotton industry. Textile Recorder, v.48, no.571, Oct. 15, 1930, p.40. (Published at 121 Deansgate, Manchester, England)

British cotton growing association. The British Empire's cotton growing possibilities at a glance. Cotton, v.36, no.1740, Oct. 18, 1930, p.27, 29. (Published by the Manchester Cotton Association, ltd., Ship Canal House, King Street, Manchester, England)

Brown, C. H. Cotton breeding and the Egyptian variety position. Cotton, v.36, no.1740, Oct. 18, 1930, p.17. (Published by the Manchester Cotton Association, ltd., Ship Canal House, King Street, Manchester, England)

Discusses the relative importance of the varieties grown in Egypt.

Fetrow, W. W. Staple lengths of world cotton crops. A preliminary report. Washington, D.C., U. S. Dept. of agriculture, Bureau of agricultural economics, 1930. 10p. Mimeographed.

Johnson, William. Better seed and community effort needed to save cotton export trade. American Ginner and Cotton Oil Miller, v. 8, no. 3, Nov. 1930, p.11-13. illus. (Published at Little Rock, Ark., P. O. Box 504)  
Urges single-variety communities.

Kearney, Thomas H. New type Egyptian cotton. Cross of Arizona Pima and Sakel combines best features of both varieties. Arizona Producer, v. 9, no.16, Nov. 1, 1930, p.5. (Published at Phoenix, Ariz.)

Mixing of Punjab cotton. International Cotton Bulletin, v. 9, no.33, Oct.-Nov. 1930, p.93-95. (Published by the International Federation of Master Cotton Spinners' and Manufacturers' Associations, Manchester, England)  
Includes a letter from the Economic and Overseas Department of the India Office and an extract from an article on "Crop Failures" by W. Roberts in the October issue of the Empire Cotton Growing Review.

More and cheaper cotton. How the Egyptian crop could be increased. Commercial, v. 21, no.542, Nov. 6, 1930, p.492. (Published by Manchester Guardian, Guardian Building, Manchester, England)  
Also in International Cotton Bulletin, v.9, no.33, Oct.-Nov., 1930.

Pearse, N. S. Report after a visit to the United States cotton belt, 1930. International Cotton Bulletin, v. 9, no.33, Oct.-Nov. 1930, p.33-51. (Published by the International Federation of Master Cotton Spinners' and Manufacturers' Associations, Manchester, England.)

Sudan government. Report on agricultural research, season 1928-29 and programmes of work for 1929-30. Khartoum, McCorquodale & Co., Ltd., 1930.  
Report on experiments in the cultivation of cotton by irrigation in the Gezira.

## Marketing Methods, Services and Facilities

Canney, E. E. How gold scarcity reacts on the cotton industries of the world. International Cotton Bulletin, v.9, no.33, Oct.-Nov., 1930, p.101-110. (Published by the International Federation of Master Cotton Spinners' and Manufacturers' Associations, Manchester, England)  
Abstracts from "The Effects of Gold Scarcity on Industry, Agriculture, Trade, Work and Wages," by E. E. Canney.

Olsen, Nils A. Recent work on cotton marketing of the Bureau of agricultural economics. Cotton, v. 36, no.1740, Oct. 18, 1930, p.33. (Published by the Manchester Cotton Association, Ltd., Ship Canal House, King Street, Manchester, England)

Steibels, Edwin G. Cotton insurance gives broad and unique form of protection. National Underwriter, 34th year, no.33, Aug. 14, 1930, p.5. (Published at A1946 Insurance Exchange, Chicago, Ill.)

## Manufacturing

Dietrich, E. B. The present status of the cotton textile industry. International Labour Review, v.22, no.4, Oct. 1930, p.423-444. (Distributed in the United States by the World Peace Foundation, 40 Mount Vernon St., Boston, Mass.)

"In the present article...attention is directed mainly to economic conditions. The author... bases her conclusions in part on documentary information but also on first-hand investigations in many of the chief textile countries of Europe, including Russia, and in the United States of America."

Summary in Statist, v.116, no.2750, Nov. 8, 1930, p.640.

Kendall, Henry P. Merchandising starts with the raw material. Printers' Ink Monthly, v. 21, no.1, July, 1930, p.33-34, 86, 91. (Published at 185 Madison Avenue, New York City)

Description of the Kendall Company's "plan whereby from the cotton seed to the packaged finished product there is an integrated management control."

Wages and hours of labor in the cotton-goods industry, 1930. Monthly Labor Review, v. 31, no.5, Nov. 1930, p.1208-1220. (Published by Bureau of Labor Statistics, U. S. Department of Labor, Washington, D. C.)

Technology

Pickard, R. H. Research in the British cotton industry - The work of the Shirley Institute, Didsbury, Manchester. Cotton, v.36, no.1740, Oct. 18, 1930, p.24. (Published by the Manchester Cotton Association, Ltd., Ship Canal House, King Street, Manchester, England)

Technology - Raw Cotton

Heim de Balsac, F., and Miegé. Influence de divers facteurs: recepage, époque de la récolte, irrigation, sur la qualité des fibres du cotonnier. Coton et culture cotonnière, v. 5, no. 2, Aug. 1930, p.93-104. charts. (Published at 34, Rue Hamelin, Paris, France)  
Influence of different factors - ratooning, time of harvest, irrigation - on the quality of cotton fibers.

Luedtke, M. The structure of the cells of vegetable fibers. Melliand, v.2, no.8, Nov. 1930, p.1057-1062. illus. (Published at Woolworth Building, New York City)

Maskell, E. J., and Mason, T. G. Studies on the transport of nitrogenous substances in the cotton plant. V. Movement to the boll. Annals of Botany, v. 44, no.175, July, 1930, p.657-688. (Published by Humphrey Milford, Oxford University Press, Amen House, Warwick Square, E.C., London, England)

Literature cited: p.688.

Urquhart, Alexander Robert, and Eckersall, Norman. The moisture relations of cotton. vii.-A study of hysteresis. Textile Institute Journal, v. 21, no.10, Oct. 1930, p.T499-T510. charts. (Published at 16 St. Mary's Parsonage, Manchester, England)

Technology - Manufactures

B., S. Practical mill sampling of cotton.  
Textile Manufacturer, v. 56, no. 670, Oct. 15,  
1930, p. 351-352. (Published at 65, King St.,  
Manchester, England)  
Methods of running samples through the mill.

Bale opener for matted bales. International  
Cotton Bulletin, v. 9, no. 33, Oct.-Nov. 1930,  
p. 123-124. (Published by International Federation of Master Cotton Spinners' and Manufacturers' Associations, Manchester, England)

Bleaching various weights. Practical methods for  
handling gray cloth. Kier processes for light  
and heavy weight materials discussed by experienced bleacher. American Wool and Cotton Reporter, v. 44, no. 46, Nov. 13, 1930, p. 4141.  
(Published by Frank P. Bennett & Co., Inc.,  
530 Atlantic Ave., Boston, Mass.)

Clark, Charles H. The "American system" of  
cotton spinning. Fibre and Fabric, v. 83, no.  
2388, Nov. 8, 1930, p. 16-17. (Published by Wade  
Publishing Company, 465 Main St., Kendall  
Square, Cambridge, Mass.)  
Discussion of the use of longer traverses for  
spinning ordinary counts.

Cleaning cotton machinery to improve quality without losing production. Discussion by Eastern Carolina Division of Southern Textile Association. Textile World, v. 78, no. 18, Nov. 1, 1930, p. 2128-2131. (Published by Bragdon, Lord & Nagle Co., Inc., Tenth Ave. at 36th St., New York City)  
Discussion at meeting of Oct. 17, 1930.

Cotton sewing thread. Smoothness and strength important qualities. The combing process. Irregularities due to uneven doubling and twisting. American Wool and Cotton Reporter, v. 44, no. 46, Nov. 13, 1930, p. 4143. (Published by Frank P. Bennett & Co., Inc., 530 Atlantic Ave., Boston, Mass.)

Dawson, J. H. Colored cotton mixing and carding. Textile American, v. 54, no. 5, Nov. 1930, p. 41. (Published at 440-442 Old South Building, Boston, Mass.)

The classification of dyestuffs is discussed in connection with the mixing of dyed cotton.

Ellis, H. Textile microscopy. - I. Textile Recorder, v.48, no.571, Oct. 15, 1930, p.34-35. illus. (Published at 121 Deansgate, Manchester, England)

Grinshaw, Albert H. Tensile strength tests of sized and unsized cotton warps. Melliand, v.2, no.8, Nov. 1930, p.1050-1056. (Published at Woolworth Building, New York City)

Gurney, H. P., and Davis, E. H. The elastic properties of yarns, with special reference to tire cords. Textile Institute Journal, v.21, no.10, Oct. 1930, p.T463-480. charts. (Published at 16 St. Mary's Parsonage, Manchester, England)

Hall, A.J. Detection of bacterial decay in textile fabrics. Textile Mercury, v. 83, no.2171, Oct. 24, 1930, p.434. illus. (Published at 20 Mount St., Manchester, England)

Discussion of results obtained by G. O. Searle from investigations of the rotting of cotton and linen fabrics and reported in Journal of the Textile Institute, 1929, v.20, p.162T.

Hughes, Thomas F. Fundamentals of cotton piece-goods finishing. Textile World, v. 78, no. 18, Nov. 1, 1930, p.2132-2133. illus. (Published by Bragdon, Lord & Nagle Co., Inc., Tenth Ave. at 36th St., New York City)

Mercerization of cotton yarn and piece goods. In the gray or from the bleach - Practical suggestions for bleaching and mercerizing processes - Peroxide bleach - Half-mercerizing. American Wool and Cotton Reporter, v.44, no.46, Nov. 13, 1930, p.4139-4140. (Published by Frank P. Bennett & Co., Inc., 530 Atlantic Ave., Boston, Mass.)

Mercier, Alfred A. Fabric friction coefficient. Practical method for measuring slipperiness. Variations readily recorded. Napped surfaces show most friction. American Wool and Cotton Reporter, v.44, no.46, Nov. 13, 1930, p.4145, 4147. illus. (Published by Frank P. Bennett & Co., Inc., 530 Atlantic Ave., Boston, Mass.)

Mullin, Chas. E. pH - What it means to the mill man. Textile World, v. 78, no.20, Nov. 15, 1930, p.2348-2350, 2391. illus. (Published by Bragdon, Lord & Nagle Co., Inc., Tenth Ave. at 36th St., New York City)

The necessary properties of starch. International Cotton Bulletin, v. 9, no.33, Oct.-Nov., 1930, p.115-116, 119. (Published by the International Federation of Master Cotton Spinners' and Manufacturers' Associations, Manchester, England)

Sneaton, J. Specifications of cotton cloths. Textile Manufacturer, v. 56, no.670, Oct. 15, 1930, p.381-382. (Published at 65, King St., Manchester, England)  
Abstract of lecture to the Textile Institute.

Smith, Edward D. Humidification of textile plants. Southern Textile Bulletin, v. 39, no.9, Oct. 30, 1930, p.14, 36. (Published by Clark Publishing Co., 18, West Fourth St., Charlotte, N. C.)

Paper before Textile Division, American Society of Mechanical Engineers, at Greenville, S. C.

Stucklin, F. Production and rationalisation in cotton weaving. Textile Manufacturer, v. 56, no. 670, Oct. 15, 1930, p.370-371. illus. (Published at 65, King St., Manchester, England)

Waterproofing textile fabrics. Chemical and electrolytic methods. Textile Argus, v. 7, no. 318, Oct. 17, 1930, p.1041, 1052. (Published at Commerce House, Cheapside, Bradford, England)

Yarn inspection by mechanical methods. International Cotton Bulletin, v. 9, no.33, Oct.-Nov. 1930, p.113-115. illus. (Published by the International Federation of Master Cotton Spinners' and Manufacturers' Associations, Manchester, England)

Cotton Seed, Cottonseed Products, and Linters

Fulson, H. O. Air handling systems for cottonseed. Oil Miller and Cotton Ginner, v. 37, no.3, Nov. 1930, p.21-22. illus. (Published at 161 Spring St., N.W., Atlanta, Ga.)  
Comparison of two systems.

Meloy, G. S. Development of standard methods for grading and evaluating cottonseed. Cotton and Cotton Oil News, v. 31, no.46, Nov. 17, 1930, p.3, 10-11. (Published at 3116-18 Commerce St., Dallas, Tex.)

Address delivered July 10, 1930, at Dallas, Tex.

Seed grading discussed with Dr. G. S. Meloy from the ginners' viewpoint. American Ginner and Cotton Oil Miller, v. 8, no.3, Nov. 1930, p.14-16. (Published at Little Rock, Ark., P. O. Box 504)

Questions and answers.

Thornton, M. J., jr., and Gragg, J. E. Rapid determination of moisture in cotton seed. Oil Miller and Cotton Ginner, v. 37, no.3, Nov. 1930, p.19-20. illus. (Published at 161 Spring St., N.W., Atlanta, Ga.)  
Description of method used.

Miscellaneous - General

Empire cotton growing corporation. Conference on cotton growing problems, August, 1930. Report and summary of proceedings. London, 1930. 166p. illus.

Papers and discussions: General problems in the investigation of cotton quality, by F. T. Peirce, p.9-13; Immaturity of cotton, by G. G. Clegg, p.13-17; The causes of nep in cotton, and the possibilities of its prevention, with special reference to the Sudan, by M. A. Bailey, p.17-31; "New place effect" on cotton, by J. B. Hutchinson, p.40-43; The practicability of obtaining a single variety of cotton suitable to the whole of Uganda, p.51-57; The organisation of seed exchange for local experiments - especially of pure strains of local types, note by A. J. Wakefield, p.61-63; The maintenance of purity of cotton strains under distribution to peasant

farmers, with special reference to southern Nigeria, by C. J. Lewin, p.65-68; Uniformity of cotton, variation in length, hair weight, etc., by C. Underwood, p.74-80; Methods of correlating the strength of cotton yarn with hair properties, by G. A. R. Foster and J. Gregory, p.88-94; Field experiments and the analysis of yield variation in cotton, by E. J. Maskell, p.96-106; The inter-relation of factors in determining the growth of the cotton crop, in the Sudan, by F. G. Gregory, Frank Crowther and A. R. Lambert, p.112-128; Black-arm or angular leaf spot disease of cotton plants, by R. H. Stoughton, p.130-137; Note on erosion and soil alkali, by A. F. Joseph, p.144-146; The desirability of interchange of details of methods employed in measuring 'halo-lengths' at different experiment stations, by M. A. Bailey, p.152-156; Grafting and graft-hybrids in connection with cotton plants, by F. E. Weiss, p.158-161; The trials of the latest picking machines in the United States of America, p.163-165.

International cotton committee. Minutes of the... meeting held at the Hotel Astoria, Brussels, on...20th (-21st) October, 1930, 1930. International Cotton Bulletin, v. 9, no.33, Oct.-Nov. 1930, p.1-6. (Published by the International Federation of Master Cotton Spinners' and Manufacturers' Associations, Manchester, England)

National association of cotton manufacturers. Annual meeting, October 10 and 11, 1930, Poland Springs house, Poland Springs, Me. Textile American, v. 54, no.5, Nov. 1930, p.25-39. (Published at 440-442 Old South Building, Boston, Mass.)

Proceedings of the annual meeting, including speech by Floyd W. Jefferson on Export Opportunity in Cotton Textiles; President's address, by Lincoln Baylies; Report of the secretary, Russell T. Fisher; reports of the committees; and President's banquet address, by Ward Thoron.

Semi-annual meeting of Southern textile association.  
 Southern Textile Bulletin, v. 39, no.9, Oct. 30,  
 1930, p.7-11, 36. (Published by Clark Publishing  
 Co., 18 West Fourth St., Charlotte, N. C.)

Meeting held in Greenville, S. C., Oct. 24, 1930.

Includes address by C. K. Everett on the work  
 being done by the Cotton-Textile Institute to  
 increase the use of cotton textiles.

Also in American Wool and Cotton Reporter, v.44,  
 no. 44, Oct. 30, 1930, p.3975, 3977, 4027-4033.

Textile research. U. S. institute forms permanent  
 organization. Dr. S. W. Stratton elected presi-  
 dent. American Wool and Cotton Reporter, v. 44,  
 no.46, Nov. 13, 1930, p.4167-4169. (Published  
 by Frank P. Bennett & Co., Inc., 530 Atlantic  
 Ave., Boston, Mass.)

Annual meeting of the U. S. Institute for  
 Textile Research, held at New York City, Nov. 6,  
 1930.

Vanstone, J. Henry. The raw materials of commerce:  
 a descriptive account. New York, Sir I. Pitman  
 & sons, ltd., 1929. 2v. illus.  
 Cotton: v.1, p.11-22.
